

First Draw up your Floor Plan

- ☐ 1. Measure each wall carefully - check for square and plumb.
Don't forget to mark in windows on your plan.
- ☐ 2. Decide layout of your kitchen. Draw up the plan of your bench-tops.
Carefully mark in where your stove, sink, refrigerator and any other appliances are to fit.
- ☐ 3. Divide spaces into cabinet units available from Standfast Cabinets.
Don't forget to allow for any end panels that may be required.
- ☐ 4. We will require a separate plan drawing for bench-top showing all dimensions.
- ☐ 5. A list of doors & panels should also be prepared to accompany cabinet order, from this list you can
Work out cutting List or your Polytech Order.
- ☐ 6. Now it is time to consult your price list - all units are priced in your brochure.
This is so you know your costs before you place your order.
- ☐ 7. Fill out your order form and place your order with Standfast Cabinets for service you cannot match.
- ☐ 8. Please allow up to 3 weeks for manufacture of your units. Benchtops & Door lead times will vary from
this, depending on supplier.
