STANDFAST KITCHEN KITS

HOW TO ASSEMBLE YOUR

WALL UNIT MODULE

- 1. Assemble one unit at a time as you unpack it.
- 2. Insert cams into cam holes in Sides & Back, with screw side facing up.
- 3. Attach both Sides onto matching cam dowels on Back. (Cams on the Back should be facing <u>out</u>, and cams on the Sides facing <u>in.</u>) Align parts and lock cams on each piece as you proceed by turning cam screws 180deg.
- 4. Attach Top & Bottom onto cam dowels on Sides & Back and then lock those cams.
- 5. Now install your unit making sure it is level and square.
- 6. If using a Corner Unit, make sure this is the first unit installed and work your way out from there with standard units. See separate sheet for Corner Unit Assembly.
- 7. Insert Shelf supports and place Shelf into position.
- 8. Insert hinges into Door/s and lock by turning screws ¼ turn clockwise. Screw hinge-mounting plates to cabinet and clip on doors. Attach Handle/s.

TOOLS REQUIRED

Spirit Level Screwdriver (supplied) Cordless drill
